The Cascade Oil and Storage Co.

OFFICE OF R. W. Griswold & Co., ...BROKERS ...

Beaumont, Texas, Feb. 26, 1902.

Geo. L. Porter & Co., Houston, Texas.

Dear Sin-You may offer for subscription Twenty-five Thousand Shares of the Cascade Oil and Storage Company's stock to your customers at 44 cents per share.

We think it advisable not to sell any one customer more than Five Thousand shares, or not less than One Thousand shares, as the stock is going to be an active trader on all the Exchanges. For convenience. One Thousand share lots seem to be preferred and, no matter what size your order may be, owned by the railroad companies. the tock will be issued in One Thousand share cer-

We were only authorized to sell One Hundred Thousand shares at the 43 cent price, which is divided: 25,000 shares, Goo. L. Porter & Co., for Houston and Galveston orders; 20,000 shares, J. Mck. Ferrida; & Co., Colorado Springs, Colorado, for Western orders; 20,000 shares to C. H. Hamilton, New Oceans, for New Orleans subscription, leaving this effice only 35,000 shares,

You will see that the stock will be oversubscribed, therefore would like to hear from you as soon as possible whether you can spare any part of your stock for this office. After this stock is subscribed all future orders will be executed upon the Exchange, which price will certainly be at a great advance.

You may purel are for our account at any time within the next thirty days any part of the capital stock of the Cascade Oil and Storage Co., at 45 cents per share, which shows you our confidence in the company, Yours very truly, R. W. GRISWOLD & CO.

NOTICE - Be sure and have your customers receive our Market Letter dated March 1st, or have them write us.

MONTHLY MARKET LETTER

Of R. W. GRISWOLD & CO., Brokers.

BEAUMONT, TEXAS, February 1st, 1902.

Dear Sir:-The month of January has been a month of quiet figuring on big deals; several mammoth deals were consummated. Probably the most important was the Hogg-Swayne Syndicate selling their holdings to the Roche-Stuart combination of London, England, and the forming of the Texas Fuel Company. The Hogg-Swayne people then formed another company, The Producers Oil and Pipe Line Company, with a capital of \$1,500,000, purchasing the scattered interests of the Cleveland heirs, amounting to fourteen acres in the proven territory. This stock has been offered at par and is a good purchase.

The oil will be marketed by the Roche-Stuart European Petroleum Company vessels.

What will be the greatest importance to the hill will be the development of the Higgins well, which is now being sunk on the Higgins property, entirely below the casing off the "guisher" stratum, Mr. Patillo Higgins having a theory that there are other strata of oil sand further down.

Additional cars are being received daily, and there are now in use probably 1200 tank cars, including those

The local Exchange is fast getting upon a very solid basis, but there is a lack of official information to enlighten those who enquire for reports on the different companies. This difficulty will be remedied this month. The interest manifested by the public in the methods used by the Exchange to determine prices leads us to

believe that the Beaumont Exchange will soon be one of the greatest financial mediums that ever handled oil Several companies declared dividends during January, and many earned dividends. As a rule, quotations declined, due to a pressure of liquidation, as it were, recovering from the tremendous boom of ten months ago;

besides, the novelty of placing stocks on an exchange for public crincism is usually a severe test at first, but in many instances we know they have reached bottom prices, because the quotations are less than the property owned by the companies would bring on the present market, as in the case of Higgins, Lone Acre, Beaumont Oil, Beatty, Gober, Citizens Consolidated, etc. Independence, a new cheap stock, was a winner brought out and backed by the Fagin Investment Company,

and we look for the stock to go much higher. Lone Acre sold as low as \$55.00 and Beaumont Oil at \$27.00 during the month, which we have repeatedly advised our patrons to purchase. Higgins, at present prices, will earn 15 per cent, and has already earned and paid a 4 per cent dividend, besides investing heavily in improvements. Anglo-American fell as low as 15 cents per share, and at these figures is a good speculation, but as an investment we haven't the slightest confidence in the management.

When the benefit of the Exchange method is thoroughly realized, the quorations will be much closer, and both buyers and sellers will be bester satisfied to trade through responsible brokers. We strongly advise oil stock buyers to use the Exchange as a medium for making purchases, and suggest that all large holders see that their company is listed on the Exchange, and thus bring about substantial conditions in these oil stocks, making them this company. We enclose herewith a statement of staple and solid, and handled as every legitimate enterprise should be

We will issue a Market Letter every month and numerous circulars at regular intervals, and invite everybody this field, to send his address so that we may give you the benefit of this information. Yours very truly,

R. W. GRISWOLD & CO., Beaumont, Texas.

NOTICE We will send our Monthly Market Letter to any one sending us their address. We make every effort to give the best information in our power for our customers,

Statement of the Cascade Oil and Storage Company.

The Cascade Oil and Storage Company Is capl. talized for only \$85,000 with shares par value to cents, or a total of 850,000 shares, of which \$40,000, or 400,000 shares, belongs to the treasury of the company for future use, buying more land erecting tankage, pipe lines, etc.

The property they own in fee simple is the extreme Southeast corner lot of block 21. Gladys City, at the junction of La Port and East Fifth streets, and is entirely surrounded by gushers. The title is absolutely perfect. All adverse suits, including the famous Snow suit, have been settled. They have an option upon another tract in

block 33, which may be bought later. C. E. Jones of the Jones Development Company has complete charge of drilling the well on the block 21 lot, which is a guaranteed gusher. Connection can be made within twenty feet of the well

with five different pipe lines.

The Officers and Directors Are: R. W. Griswold President H. H Rouse Secretary James V. Polk Treasurer

The company are negotiating through E. W. Humphrey of New York with an English syndicate now forming for the sale of enough oil to pay more revenue and dividends than any other company in the field, which is possible on account of the small capitalization and the small number of shares issued. Enough oil should be sold within the first year to more than der are a ten per cent dividend.

The officers of the company, together with Colonel I. D. Polk, are also the largest owners and all are well known in the Beaumont oil field with the exception of Mr. Conley, who is from Chillicothe, Onio, but who proposes to make Beaumont his home. Mr. Jones has probably drilled more wells than any other individual well driller outfit in

The depository of the company is the First National Bank of Beaumont, Texas, and the official agents of the stock are R. W. Griswold & Co.

This company is to be managed exclusively for earning money from the sale and storage of oil.

Send your orders to us for this first issue of the Cascade Oil and Storage Company stock. We strongly advise wiring orders at our expense.
